Who We Are

KN Construction Consultants is a construction support and project management services firm founded in 2020 to provide scalable technical and commercial support to construction organizations by virtual supporting the project execution, with operations based out of India.

Our model focuses on embedding dedicated offshore teams into client organizations to function as an extension of their project delivery operations rather than traditional outsourcing.

We specialize in supporting:

- General Contractors
- Developers
- PMCs
- Subcontractors

Our Growth Story

2020

Established

70+

Employees

20+

Active Clients

98%

Annual Client Retention

Our Value Proposition

We provide: Scalable technical construction talent | Cost effective delivery models | Fast deployment teams | Process driven execution | Technology enabled delivery

Integrated Construction Support Services

KNCC provides end-to-end project lifecycle support from preconstruction through project closeout.

Preconstruction Services

- Estimation & Quantity takeoffs
- Bid leveling
- Budget development
- Value engineering
- Subcontractor comparison analysis

Project Controls

- Cost tracking & Budget management
- Change order logs
- Risk tracking
- KPI dashboards

Project Planning

- CPM scheduling & Lookahead schedules
- Delay analysis
- Resource loading

Project Accounting Support

- Invoice validation
- Cost coding
- Forecast tracking
- Vendor payment tracking

Construction Administration

- RFI tracking & Submittals
- Document control
- Meeting minutes
- Contract logs

Miscellaneous

- Site evaluation support
- Utility coordination tracking
- Entitlement documentation support
- Infrastructure coordination tracking

How We Organize Our Teams

Unlike freelance staffing models, KNCC builds structured delivery teams with clear leadership and accountability.

Team	Leadership & Members	Work Performed
Project Controls Team	Lead: Sr. Project Controls Specialist Members: Cost Engineers, Analysts, Reporting Specialists	Budget tracking, Cost reports, Earned value tracking, Change management logs, Client dashboards
Estimation & Costing Team	Lead: Senior Estimator Members: Quantity Surveyors, Takeoff Specialists, Bid Analysts	Quantity takeoffs, Cost estimates, Bid comparison sheets, Vendor pricing analysis, Budget validation
Project Planning Team	Lead: Senior Scheduler Members: Planning Engineers, Schedule Analysts	CPM schedules, Baseline schedules, Progress updates, Delay analysis, Recovery schedules
Project Accounting Team	Lead: Commercial Manager Members: Project Accountants, Cost Coordinators	Cost reports, Invoice validation, Forecast tracking, Vendor reconciliation
Preconstruction Team	Lead: Precon Manager Members: Bid	Bid package preparation, Prebid coordination
Others	Coordinators, Doc Controllers, Tech Coordinators	Procurement tracking, Submittal management

Our Delivery Model

KNCC resources operate as:

- Dedicated team members
- Embedded project support staff
- Virtual project engineers
- Remote project coordinators

Resource Scaling Capability

We can deploy resources quickly and efficiently:

- 1 resource: Within 2 weeks
- 3–5 resources: Within 3–4 weeks
- 10+ resources: Structured ramp plan

Experience Levels Available

- Junior Engineers: 1–3 years
- Project Engineers: 3–6 years
- Senior Engineers: 6–10 years
- Technical Leads: 10+ years

Flexible Engagements

We provide: Full time resources |
Part time resources | Project based
teams | Rapid deployment support

Tools We Support

We integrate into your workflows rather than changing them. Client System First Approach.

Project Management

- Procore
- Autodesk BIM 360
- Aconex

Estimation

- CostX
- Planswift
- Bluebeam

Scheduling

- Primavera P6
- MS Project

Reporting

- Excel dashboards
- Power BI
- Client ERP systems

Technology Philosophy

We work strictly inside client systems rather than forcing our own proprietary platforms. This ensures complete data ownership, transparency, and seamless collaboration.

Our Track Record

Rather than listing confidential projects, KNCC highlights our extensive experience volume across various sectors.

2500+

Estimates Completed

200+

Projects Supported

150+

Schedules Developed

1,000+

Project Reports Delivered

\$200Mn+

Cumulative Construction Value
Supported

Project Types Supported

- Multifamily residential
- Commercial buildings
- Healthcare facilities
- Hospitality
- Mixed use developments
- Infrastructure support projects

Data Center Exposure

- Preconstruction coordination support
- Utility documentation tracking
- Real estate support documentation

How KNCC Can Support MasTec

Based on MasTec's infrastructure and data center portfolio, KNCC is positioned to provide immediate value.

Target Support Areas

- Estimating bandwidth expansion
- Project controls reporting
- Schedule development support
- Commercial tracking support
- Preconstruction documentation
- Bid support

Immediate Opportunities

KNCC can start supporting immediately with:

- Project Engineers (virtual)
- Cost Engineers
- Schedulers
- Document controllers

Strategic Opportunity

KNCC can function long-term as:

- Your offshore project controls office
- Your remote estimating department
- Your project administration support team

Your Scalable Construction Talent Partner

KNCC is interested in developing a long term strategic relationship where we grow alongside MasTec.

Engagement Models

Model	Description
Pilot Team Engagement	Initial small-scale deployment to demonstrate capability and align processes.
Dedicated Support Teams	Full-time resources integrated entirely into your organizational structure.
Hybrid Offshore + Onsite	Combines the cost-efficiency of offshore talent with dedicated onsite leadership.
Middle East Support Resources	Strategic geographic alignment for specific regional project deployments.

Resource Expansion Strategy

Based on MasTec needs we can:

1. Build dedicated teams
2. Train resources specifically to MasTec standards
3. Develop specialized data center teams
4. Deploy onsite resources if needed

"Our Goal: To become your trusted resource partner for construction support services."

How We Work

Step 1: Discovery Discussion

Understand current operations, workflows, and immediate talent bottlenecks.

Step 2: Identify Support Gaps

Pinpoint exact disciplines and experience levels required.

Step 3: Propose Pilot Team

Structure an initial deployment model with clear deliverables and KPIs.

Step 4: Deploy Initial Resources

Onboard talent seamlessly into client systems and communication channels.

Step 5: Scale Based on Performance

Evaluate success metrics and expand support footprint accordingly.

Why Clients Work With KNCC

- Reliable delivery
- Flexible pricing
- Strong communication
- Process discipline
- Fast scaling

Our Differentiators

We are not a staffing agency.

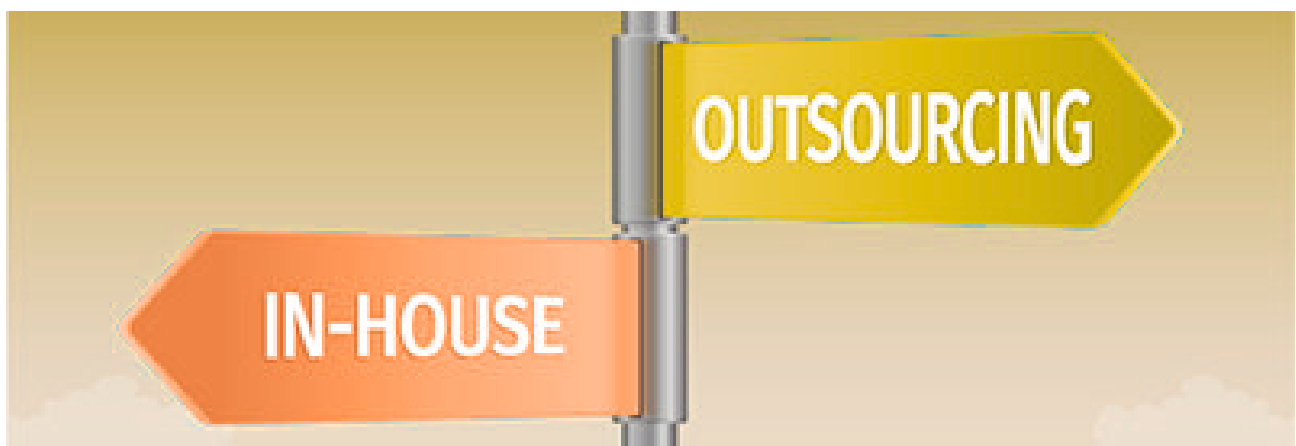

We are a construction support organization.

The KNCC Difference

- We build teams – Cohesive units rather than isolated freelancers.
- We manage quality – Internal QA/QC before client delivery.
- We provide leadership – Senior oversight on all deployments.
- We ensure continuity – Robust cross-training and knowledge retention.

What Makes Us Different

- Construction domain focus
- Leadership involvement
- Dedicated team model
- Long term partnership mindset
- Flexibility in engagement

CALL TO ACTION

Let's Explore a Pilot Engagement

KNCC is interested in supporting its clients through scalable, high-quality resource deployment. We are flexible in structuring engagement models based entirely on your operational needs.
